attended the Landbreck community

sale on Saturday last.

H. A. MOORE HONORED

Mr. H. A. Moore was pleasantly surprised on Monday evening, when a delegation representing the Alberta Grand Lodge and Rocky Mountain Lodge No. 86 of the A. F. & A. M. gathered at his home and presented him with a 50-year-membership Masonic jewel in behalf of Argyle Lodge, Montreal.

Mr. Moore joined the Order in the city of Montreal in 1894 and completed 50 years as a member on the 16th of April of this year.

Having passed the three-score-and-ten, Mr. Moore has now retired from labor, after a very active life of rail-roading extending over a period of also nearly 50 years. Coming west in 1907, he found employment on the Lethbridge division of the C.P.R., following negotiations at Winnipeg and Calgary and a "run" as far west as Cranbrook, when he "pulled the throttle" on the crack Soo-Spokane Flyer over a strange run.

Returning to Frank to handle the work train for a while, he soon found the "spell of The Pass" taking hold, and although obliged on a couple of occasions to follow his employment elsewhere, always found himself returning to this district, to establish his home, for a while at Frank, and later at Blaimore.

Prior to coming west he was employed by the Grand Truck, running out of Montreal for 18 years. It was in March of 1938 that he retired to a well-earned rest.

A MESSAGE FROM THE

POSTMASTER-GENERAL

Ottawa.

To All Canadians:

Last year over 25,000,000 pounds of mail were despatched from the base post office to our forces overseas. No words can describe how vital your letters are to the morale of our men and women away from home.

Yet due to carelessness or oversight in addressing, well over 250,000 letters for overseas had to be set aside last year for attention by the redemptory section of the Canadian postal corps.

This results in delay in delivery to the addressees with great disappointment to those who count on getting letters from home. It imposes a heavy additional burden on the postal staff in its great task of handling the greatly increased volume of mail under the handicap of manpower shortage from which it suffers in common with other Canadian businesses.

You can help your post office to speed the delivery of your mail to loved ones overseas. As your Postmaster General, I make a special appeal to you to take extra care in addressing your letters, to make sure that the address is complete in every detail.

If you will take an extra moment to make sure the address is right you will be helping us to give our overseas forces a better mail service.

Yours sincerely,

W. F. MULLOCK,

Postmaster General.

It's a common practice in Nova Scotia nowadays to die in the nineties. Were they believers in some of the modern forms of government, they'd be looking for something in the hereafter. Here's hoping!

PASTOR TRANSFERRED TO ONTARIO PULPIT

Following the evening service at the United church on Sunday last, a meeting of the congregation was held to consider the resignation of the pastor, Rev. E. B. Arrol.

The secretary read a letter from Mr. Arrol, confirming his resignation and expressing his sincere regret at severing connection with a congregation that had proved to be so faithful and loyal during his ministry here.

Thanking the Ladies Aid Society for their thoughtfulness and kindness to himself and family, he stated that in all his ministerial career he had never come in contact with a more active body of women than those in Blaimore United church.

The congregation at a previous meeting endeavored to have Mr. Arrol continue his ministry here, but having served in Blaimore for about six years, and feeling the urge to move to Eastern Canada, he reluctantly declined the invitation.

Mr. Arrol leaves here at the end of June to take over the United church pulpit at Tobermory, Ontario. He and his family will carry with them the very best wishes of the people of Blaimore.

A successor to Mr. Arrol has not yet been decided.

SON OF FORMER

COWLEYITE DIES FROM
ACCIDENT OVERSEAS

Word was received last week by Mr. and Mrs. E. C. Baines, of 1316 Sixth Ave. S., Lethbridge, informing them of the death overseas of their son, Pte. Edmund Philip "Teddy" Baines, as a result of an accident. The soldier was run over by a bus while he was off duty.

Pte. Baines was born in Lethbridge. He was 32 years of age and had been a member of the army for the past four years, being two years in Britain. He was married last September.

2,000 CHILDREN IN PORTS-

MOUTH ATTEND PARTIES

The Queen's Canadian Fund has received hundreds of letters of thanks from young people who attended the parties organized by the Lord Mayor's Fund with money donated by Canadians. A number of them came from children living in Portsmouth.

Many of these parties had to be held after Christmas because some of the children were away and all of them wanted to be present.

The following is taken from the Portsmouth Times. It refers to a series of four parties held at the end of January, 1944. We quote:

"The laughter of school children rang through the Parade Pier pavilion on Monday afternoon—and there was more laughter every afternoon until Thursday.

"Monday's was the first of four Christmas parties for a total of 2,000 children who have been bombed out or have suffered in some way because of the war.

"The children joined in community singing. Uncle John Hart was there with his conjuring, paper tearing and ventriloquism, and Harry Seager added to the excitement with his Punch and Judy show. There were prizes, too, for a laughing competition. The South Parade Pier pavilion is an ideal place for festivities on this scale. The tea with blanc mange, cake, jam, etc., was served on long tables.

"Mr. E. G. Barnard, the Chief Education Officer, introduced the Lord Mayor and Lady Mayors.

"The children gave loud cheers for the people in Canada who had provided the money to pay for these parties."

PUT VICTORY FIRST!

The Pictou district in Nova Scotia more than doubled its quota in the Red Cross Fund campaign drive.

PUT VICTORY FIRST!

The slogan of the Sixth campaign is forceful and effective. That Canada will rally to the call of the Victory Loan there is no doubt.

"We are not going to fail the men at the front in this critical and momentous period. The men have carried on in the hope of victory to be achieved. We will not now withhold the tools necessary to their final achievement.

Put Victory First and Buy Bonds to your limit.

MRS. HADWELL PASSES

The death occurred on Sunday evening of Mrs. Rachel Maria Hadwell, well known district oldtimer, at the ripe age of 81. She is survived by one son, Thomas Hadwell, with whom she has resided for some years past. Funeral took place on Wednesday afternoon from the residence at Fifth Avenue south to Central United church, where service was conducted by Rev. E. B. Arrol, B.A. The remains were laid to rest in the Blaimore union cemetery.

COWLEY HAPPENINGS.

Mrs. Joe Diamond is a patient in hospital at Pincher Creek.

A. Wende has returned from a business trip to the Nelson district.

Mrs. I. Irwin has returned from an extended visit to Calgary.

The Cowley Young People's Society held a very successful dance in aid of the cigarette fund for the boys overseas in the Cowley opera house on Friday night.

Miss Rosella Shambron, of the North Fork, has returned from Lethbridge, where she had been for hospital treatment.

Mrs. Wilfred Fortier and Mrs. X. C. Kaupp are spending the week visiting in Calgary.

Mrs. Arthur Tustian has returned from Pincher Creek, where she was patient in hospital for a few days.

Lory Blackburn, of Pincher Creek, paid a week-end visit to the Murphy families here.

Miss Mae Poulson has accepted the position as teacher of the Gladstone school, and left Saturday to take up her new duties.

Donald McKay, who is stationed at the Vernon, B.C. military camp, is home on a short leave.

Mr. and Mrs. Albert Cleland and family have recently moved from their Porcupine Hills ranch to the old Easterbrook place, where they will carry on in agricultural pursuits in a more extensive manner, while Cyril Easterbrook, who until a short while ago occupied the old home place, has moved with his family of two small children to take up residence near Calgary, which they recently purchased.

A farewell party was held in the Cowley opera house on Wednesday night for Mr. and Mrs. Jack Welsh, who have recently taken up residence in Pincher Creek. Whist was in order the early part of the evening, with prizes going to Mrs. Ed. Smith, ladies' first; Miss Anna Papp, consolation; Ed. Smith, gents' first; Harry Smith, consolation. C. J. Bundy was master of ceremonies. The honor guests were presented with a handsome gift as a token of the esteem in which they are held by their many friends who gathered to do them homage. The presentation speech was made by Mr. H. C. Morrison and fittingly replied to by Mr. Welsh. The evening's entertainment was concluded by a lively dance.

"Price" of Hillcrest, was recently included among a number of Canadian army personnel who returned from overseas. They were scheduled to reach Calgary yesterday, where a reception was to be held at the Mewata Armories.

U.N.R.R.A. Meets in Canada

IT WAS RECENTLY ANNOUNCED that the second meeting of the United Nations Relief and Rehabilitation Administration, now commonly known as U.N.R.R.A., will take place in Canada, in June. The first gathering was held in Atlantic City, in November, 1943, when detailed plans were drawn up for a world-wide program of relief and rebuilding. The problems faced by this organization are enormous, and the proceedings of the approaching meeting in Montreal will be of great interest to the people of all the United Nations. As the tempo of the Allied offensive against Germany increases, the importance of having a well-organized plan for the relief of war victims, particularly in the countries now occupied by Germany, is apparent. The function of U.N.R.R.A. is to "plan, co-ordinate and administer, or arrange for administration, of measures of relief of war victims in any area under the control of the United Nations."

Positions Held By Canadians

Represented on U.N.R.R.A. are thirty-three United Nations, ten associated nations, and the French Committee of National Liberation. The Director-General is Mr. Herbert H. Lehman, a former governor of New York State. Mr. Lehman was also at one time the United States' Director of Relief Operations and he has had wide experience as an administrator and in the realm of social reform. The Deputy Director is Sir Arthur Salter, a British expert on economic relations and international transport, who has held many important administrative posts in the government of Great Britain. A Canadian, Mr. L. B. Pearson, Minister-Counsellor of the Canadian Embassy at Washington, is the chairman of the key committee on supplies. Other Canadians who are giving their services, include Mr. Andrew Cairns of Edmonton, who is chief of the division of food, and Miss Mary Craig McCleary, director of relief.

Many Resources To Be Required

The purpose of U.N.R.R.A. is to "heal the scars of war" by the provision of clothes, food and medical supplies, and to rebuild the war-torn countries from the standpoint of economics and agriculture. All this will be done with the object of putting these countries as soon as possible, in a position to help themselves. It is apparent that this all represents a task of enormous proportions. Estimates of some of the financial resources which will be needed include: a billion and a half dollars from the United States, 320 millions from Britain, 90 millions from Canada, and 40 millions from Australia. These make up only a portion of the total requirements. Other resources which must be made available will be twenty-three and a half million tons of shipping, carry raw materials, and fifty million tons of food. As a great agricultural country it is clear that Canada has an important part to play in the work of U.N.R.R.A., and the forthcoming meeting will be of great interest here, and to the people of all the United Nations.

"I've found I can give up dosing!"

"I've found a far better way to correct constipation! One that gives me the kind of lasting relief I've always wanted, and never got, from harsh pills and purgatives. I've tried everything, but it's KELLOGG'S ALL-BRAN regularly for me from now on." Such a happy experience just one of thousands among people who have tried KELLOGG'S ALL-BRAN for constipation due to lack of "bulk" in the diet! ALL-BRAN corrects the cause of such trouble, by supplying "bulk-forming" material needed for easy, natural elimination! If this kind of constipation has plagued you, try KELLOGG'S ALL-BRAN regularly, or several ALL-BRAN muffins every day. Drink plenty of water. See if you don't praise its welcome relief! Get ALL-BRAN at your grocer's! 2 convenient sizes. Made by Kellogg's in London, Can.

Policy Of Expansion

Britain Will Try To Keep Up Employment After The War
Col. the Hon. J. J. Astor, president of the Empire Press Union and publisher of the London Times, said at Ottawa that Britain after the war will strive to keep up employment, purchasing power and her home market by a policy of expansion and by adaptations of the "strictest principles" of finance.
In an address prepared for delivery before the Ottawa Canadian Club, Col. Astor said that, like Canadians, the people of Britain now are thinking not only of the war but also of the peace, even though their first preoccupation is the war effort.

Discovers Home Skin Remedy

This clean, stainless antiseptic known all over Canada as Mecca's Emerald Oil, is such a fine healing agent that Eczema, Barber's itch, Salt Rheum, Itching Tinea and Feet, and other infestations, skin eruptions are often relieved in a few days. Mecca's Emerald Oil is so effective, it is so antiseptic and penetrating that many old stubborn eruptions standing have yielded to its influence. Mecca's Emerald Oil is sold by good druggists everywhere to help rid you of stubborn pimples and unsightly skin troubles—satisfaction or money back.

Commands Bands

—Canadian Army photo.
Capt. Grace McNeill of Hamilton, Ont., who has been appointed officer commanding the C.W.A.C. Pipe and Military Bands. Capt. McNeill will accompany the bands on their eight-month Dominion tour, which has started in the Maritimes.

Dominion Tour

Captain Grace McNeill Commands Women's Army Pipe And Military Bands
Appointment of Capt. Grace McNeill of Hamilton, Ont., as officer commanding the Canadian Women's Army Corps Pipe and Military Bands was announced by National Defence Headquarters.
Recently returned from a course of instruction with the A.T.S. overseas, Capt. McNeill left Ottawa to join the C.W.A.C. bands in St. John, N.B. She will accompany them on their eight-month Dominion tour.
One of the pioneer members of the C.W.A.C. Capt. McNeill took her basic training with the first class at Macdonald College, Que., in February 1942. She received her commission in June of the same year.
Previous to attending the A.T.S. course in Britain, Capt. McNeill held the post of Company Commander at the C.W.A.C. basic training centre at Kitchener, Ont.

SMILE AWHILE

"I love your daughter, sir, I would suffer to my dying day if I should ever cause her a moment's pain."
"You're right, young man, you would. I know that girl."
"Have you a speaking acquaintance with the woman next door?"
"A speaking acquaintance? I know her so well that we don't speak at all."
Jane—Did you know that Perry Winner gave me his first dance last evening?
Grace—Yes, he told me later on he believed in getting disagreeable things done as soon as possible.
Nervous Passenger—What if a bridge has been hit and the train falls into the river?
Guard—That's all right, sir. We have plenty of trains.
Visitor—What is this on the register?
Hotel Clerk—A bug, sir.
Visitor (laying down the pen)—I don't mind if you have bugs in this hotel, but when they come out to see what room you take—that's too much.
Private: "I know a good joke about crude oil."
Skipper: "Well, spring it."
Private: "It ain't refined."
Henry—Bess, you know how I feel toward you. Do you reciprocate?
Bess (with a shy glance)—Henry, does this mean annexation?
"This letter says my dachshund died."
"What happened?"
"He met his end going around a tree."
"Sir, you poked your umbrella in my eye!"
"Pardon me, but I did not. This umbrella belongs to a neighbor of mine named 'Postheltwaite'."
Missionary—Poor man! So you know nothing of religion.
Cannibal—Ah, yes. We got a taste of it when the last missionary was here.

Empire News

Much To Be Done In Spreading Information When War Ends
While the collection and distribution of Empire news have been greatly improved, much more remains to be done in the way of regular publication of this type of news in the peace years.
It is a complaint of long standing that the British daily newspapers devote little space even in normal times to news of Empire origin. Their main preoccupation is with European happenings. Similarly, the press of the Dominions while carrying much British news and commenting largely neglects to chronicle leading events in sister Dominions. Distance, of course, is an impediment to the growth of keen interest but now that the war has revealed their strong community of interest and mutual aims, there may be an improvement along this line when the war ends—Calgary Herald.

PLENTY OF WORK PROMISED

Canadian industrialists have plans already in their desks to employ 25 per cent. more workers and to purchase new equipment running into millions of dollars by the end of the first year of the post-war period, a survey made by the Financial Post indicates. The survey covers 2,400 Canadian firms, employing 50 hands or more.
According to the last census, 78 per cent. of the Canadian homes had radios.

GARDEN NOTES

On Guard
The small garden, both flower and vegetable, but more especially the latter, is very subject to pest damage. Sparrows may pounce on the lettuce, cut worms gnaw the tomato, grubs attack the carrots or beets. One must be on guard continuously because if we are not ready to go into action the instant the attack occurs it will be too late. Indeed with certain pests like sparrows, starlings and cut worms it is best to be prepared in advance.
Often a scarecrow or a few bits of fluttering rags, or a little brush spread over garden or lawn will scare away birds. In some cases lettuce and such tempting lines are grown under a wire netting, which is removable for cultivation.
Paper collars around the stems of tomatoes and cabbage just above and below the surface of the soil will protect against cut worms, but a poison mixture secured from any seed store is better. Special dusts can also be purchased for protecting cabbage, celery, cucumbers and melons.
A good general guard against pests is cultivation. Cut worms and many other grubs don't like to be stirred up.
Keep 'Em Spaced
One can save oneself a lot of stooping and bother by proper spacing of seed when sowing. With beans, peas and such seed, from three to five inches apart is about right. With fine seeds like those of carrots, lettuce and such, it is difficult to space evenly and thinly, but with a little care one can prevent bunching. This care in sowing will be repaid later when the plants start to grow, as such thinning will be saved.
But even with this careful sowing, some thinning is inevitable with beets, onions, parsnips and similar seed plants. The object is to give them room for growth. It is not necessary to thin—say—beets and carrots to more than an inch or so full maturity a lot of the beets and carrots will have been pulled and used. When the plants are half grown one can start using every other one in the row.
Two For One
In the small vegetable garden, output can be increased substantially by alternating rows of small, early-maturing narrow vegetables and larger, later sorts.
In the first category would be beets, radish, carrot, lettuce and, possibly, spinach. These things are planted early, take little room and mature quickly. Rows of them should be spaced about 18 inches to two feet apart. Then in between put the larger and later-maturing vegetables—things like beans, tomatoes, corn, potatoes, cabbage and celery.
The first row will be used and out of the way by the time the larger and later vegetables need all the room. In this kind of intensive gardening soil should be well fertilized and cultivated.

Journalism Award

Annual Competition Has Been Proposed For Canadian News Writers
An annual Canadian journalism award of \$1,000, comparable to the American Pulitzer prize, was proposed at the Canadian Daily Newspaper Association board meeting by Dora, Diney of Regina, national president of the Canadian Women's Press Club.
The proposal was that the competition, open to men and women who are legal residents of Canada, be confined to the field of journalism—news coverage, editorials or articles published in the daily, weekly or monthly press of Canada.
VERY NECESSARY
A man in Portland, Oregon, wrote to the local office of the O.P.A. asking for a priority to buy a gas stove. The following was his reason: "I have always had a wood stove, but now my wife is sick and can no longer bring in the wood."
The temperature seven miles above the earth is nearly constant, according to scientific tests.
WHEN NERVOUS TROUBLES MAKE ME "SHAKY" I FIND DR. MILLS NERVEINE HELPS TO RELIEVE NERVOUS TENSION AND CALM JITTERY FEELINGS
There's plenty these days to make people nervous. And overtaxed nerves can turn nights and days into misery. If you suffer in this way try the soothing, quieting effect of Dr. Mills Nerveine which contains natural nerve sedatives. Take Nerveine according to directions for help in general nervousness, sleeplessness, hysterical conditions, nervous fears; also to help headache and dizziness, to nervousness. In the meantime, eat more nature food... get your vitamins and take Dr. Mills Nerveine. Each box contains 10 Tablets are 35c and 75c. Nerveine Liquid: 25c and \$1.00.

GEMS OF THOUGHT

NATURE
Nature pleases, attracts, delights, merly because it is nature. We recognize in it an Infinite Power.—W. Humboldt.
Great things are done when men and mountains meet;
This is not done by jostling in the street.—William Blake.
Tongues in trees, books in the running brooks,
Sermons in stones, and good in everything.—Shakespeare.
Nature's first and last lessons should sanction what our natures need.—Mary Baker Eddy.
The laws of nature are the rules according to which effects are produced; but there must be a lawgiver—a cause which operates according to these rules.—Thomas Reid.
Full often too
Our wayward intellect, the more we learn
Of nature, overlooks her Author more.—Cowper.
HAS SEEN ACTION
Matron of a London war factory, Mrs. L. B. Dunster wears the African Star ribbon. She served in the merchant marine, was under fire at the evacuation of Dunkirk, saw the Jersey Bay go into action and was there when the San Demetrio, was hit by German shells.

Market For Canada

If China's Standard Of Living Increases Only Ten Per Cent.
Gen. Morrice (The Gun) Cohen, under Sun Yat Sen, commander-in-chief of the Chinese Nationalist army in the 20's and later adviser to Chiang Kai-shek, said in an interview at Toronto that China can "keep Canada busy" in the post-war years if there is but a 10 per cent. increase in her standard of living—"11 bowls of rice per week instead of 10."
Normally, a battleship carries 50 typewriters, but only 30 in wartime.

More Sacrifices Must Be Made Before War Won

TORONTO.—The war, United States Navy Secretary Frank Knox warned, "is far from won."

In fact "the period of greatest sacrifice still lies ahead," he said at a dinner connected with Canada's Sixth Victory Loan, which opens April 24. The two major Axis powers still hold their main fortresses intact and the roads to Berlin and Tokyo will be "long and bloody."

The navy secretary, introduced by Canada's Navy Minister Macdonald, conceded great achievement was to be found in the current trend of the war, "with the initiative firmly in the hands of the Allies." But he reminded his listeners there had been "those misguided prophets who predicted victory by last Christmas" and immediately began to turn their thoughts to post-war periods.

Now is the time, he said, for the peoples of the United Nations to put forth "our utmost effort (while) we have the Hun on the ropes. We can do no less than our best... we cannot—we must not let down."

For those at home to relax their war effort at this point would be "a species of treason," Mr. Knox said. He likened the Allies' present position to that of a prize-fighter who has driven his opponent to the ropes and prepares to "swing from the floor" and land the knockout.

Mr. Knox praised accomplishments of the Royal Canadian Navy in battling the U-boat menace and in assisting to convey some 50,000 ships across the North Atlantic.

He also noted Canadian naval exploits in the invasion of North Africa, Sicily and Italy, along the convoy route to Russia and in the recapture of the Aleutian Islands.

The navy secretary lauded co-operation between Canada and the United States in the field of war production. "We have made a record without parallel in history," he said. "To gether, we have wrought a miracle."

He stressed the need for continuation of such inter-Allied co-operation into the post-war era, pointing out that the British Commonwealth of Nations and the United States, he said, would be "the indispensable prerequisite of any world understanding that will prevent aggressive wars in the future."

Responsibility for nurturing this relationship among English-speaking peoples lay largely with Canada and the United States, Mr. Knox said. He advised that all similarities, rather than differences, between the British and American peoples be emphasized by writers and public speakers.

LARGE PORK STOCKS

Storage At April 1 Was The Highest In Canada's History

OTTAWA.—The Dominion bureau of statistics reported that storage stocks of pork in Canada, most of it destined for shipment overseas, totalled 104,246,631 pounds at April 1—highest in the Dominion's history—compared with 98,792,281 at March 1 and 49,006,780 at April 1, 1943.

Lard stocks also were heavy at 19,281,284 pounds compared with 15,828,319 a month ago and 1,920,050 last year.

Beef stocks were reduced to 35,107,245 pounds from 40,943,928 a month ago. Last year the stocks were 15,770,593 pounds. Veal in store amounted to 2,355,939 pounds compared with 2,982,198 March 1 and 1,366,956 April 1, 1943. Mutton and lamb in storage totalled 6,675,003 pounds compared with 7,740,094 a month ago and 1,761,685 on the corresponding date last year.

NEEDS MORE MEN

Germany Is Taking Prisoners From Italy And Greece

BARI, Italy.—Strong confirmation of Germany's dire need for manpower for bomb-ravaged industries was received with word that 3,000 Italian prisoners have been sent from Athens already this month to fill jobs in the Reich. With them went 180 Greek workers, and reports reaching Allied authorities said 600 Greek hostages, meanwhile, were leaving a concentration camp at Salonika for Germany, and an additional 800 were arriving at Salonika from Yania bound for the same destination.

BRAZILIANS IN FIGHT

LONDON.—The Algerian radio said it had been officially announced that Brazilian airmen now are co-operating with the Allied Mediterranean air force over the Azule beachhead in Italy.

GRAIN MOVEMENT

Program To Move Quantity Of Grain To Head Of The Lakes

OTTAWA.—Federal Trade Minister James A. Macdonald announced that a meeting of the emergency grain transportation committee was held in Winnipeg to lay out a program to move the maximum quantity of grain to the head of the lakes before the end of the crop year July 31 next.

It was estimated the maximum loadings on the prairies in order to move the minimum domestic, United Kingdom, United States and other export requirements would mean the loading of more than 1,800 cars a day and the unloading of approximately 885 cars a day at the Lakehead elevators.

The meeting coincided with opening of lake navigation and the loading of 2,300,000 bushels at the Lakehead on the downbound lake fleet.

A large fleet of lake vessels now is en route to the Lakehead and it is estimated stock of grain now in store there will be moved very rapidly.

RCAF Transport Growing In Size And Importance

OTTAWA.—What could easily become the transition school between combat and peacetime flying—the R.C.A.F. transport service—is growing in size and importance. Right now it covers routes extending from Whitehorse, Yukon territory, and the Queen Charlotte Islands, B.C., in the west, to Cairo in the east.

Chief of the command is Group Capt. Z. Lewis Leigh, O.B.E., 37, who considers Lethbridge, Alta., his home town. Under him are Wing Cmdr. Marlowe Kennedy, A.F.C., 39, of Winnipeg, in charge of passenger transport; Wing Cmdr. Bruce Middleton, A.F.C., 33, Fort Frances, Ont., in charge of cargo and mail transport; and Sqdn. Ldr. Ernest Hall, 43, Cumberland, B.C., in charge of the factory-to-air-station ferry service.

Kennedy's passenger-carrying department schedules and non-schedule flights. He flies high-ranking service officials on urgent missions on the North American continent.

Most famous schedule is the "Blueberry Run" from Ottawa to Halifax and intervening points. The "Ganderberry Run" from Moncton, N.B., to Gander, Nfld., and the "Gooseberry Run" from Moncton to Goose airport in Labrador carry cargo as well as passengers and mail and come under Middleton's supervision.

The original scheduled run to Halifax during the days when U-boat packs were threatening east coast shipping and much of Canada's war effort was concentrated at that port, was named for the Maritime blueberry country over which the planes flew. The names of the other two runs were an obvious development.

Middleton also has charge of the planes that transport mail to men of the three Canadian armed forces serving in the various theatres of war. Hall's group flies the Mosquitoes, Canbros, Harvards and Ansons from the Canadian factories to the R.C.A.F. home stations.

Kennedy and Middleton also have the supervision of transport pilot training. This is centred in Moncton, hub of the famous "Berry" runs. However, this school is slated to be moved, possibly to the west coast.

No "screwballs" are wanted in Leigh's outfit. The fellow who likes to dive-bomb his girl's home in the next town or make a show-off flip under a bridge near his parents' farm needn't apply to the transport service.

"We need steady men and that is the type we are getting," said the ally transport chief.

He said most of the men now coming to him had done their full stint of operational flights over hot spots like Berlin and Frankfurt. Some of them have married since the war and the great majority have reached that "settled" stage where they want to carve out a secure berth in the post-war. And their first-love—flying—seems to offer that opportunity through the transport service.

Two weeks ago H. J. Synnott, president of Trans-Canada Airlines, told a House of Commons railway committee that the R.C.A.F. had been asked to supply 75 pilots and 150 aircrew men for commercial routes and it is generally assumed that the transport service will handle this first peacetime manpower order.

Colonial Secretary

Viscount Cranborne, new British colonial secretary and leader of the House of Lords.

TAKE HEAVY TOLL

Mines Laid By British Planes Sink Many Enemy Ships

LONDON.—More than 100,000 tons of enemy shipping has been sunk by mines laid by British planes since the spring of 1940 in the thousands of square miles of water along the enemy coast from the Bay of Biscay to the Gulf of Danzig, the air ministry announced.

The offensive also is designed to check the import of raw materials from Norway, Sweden and Spain. "The coal and iron ore traffic between Germany and Sweden has been seriously interrupted," the ministry said.

The airborne mine is a long cylinder weighing about 1,500 pounds, which is released by parachute. The firing mechanism is either magnetic or acoustical. The former is activated by the magnetic flux of a ship passing over it and the latter by the sounds of the ship.

MUST BE PREPARED

LONDON.—The second front, when it opens, will have repercussions on the home front. Women of Britain have been warned that when the hour approaches they will be asked to stock their cupboards with two weeks' emergency supply of food. This will prevent shortages if communication systems become disrupted.

British War Brides Learn How

British war brides help one another make salad dressing to suit the taste of their Canadian husbands, at a weekly cooking class for British war brides held in Toronto, Ont. They are Mrs. Bill Freeman, left, whose husband is formerly of Stratford, Ont., and Mrs. Robert R. Peace, whose husband, back for aircrew training, is stationed at Windsor, Ont.

British M.P.'s Arrive In New York By Clipper

Left to right, as they arrived at Laguardia Airport, New York, are Leonard Gammons, Peter Macdonald, Henderson Stewart, John Wilmot, members of the British parliament who arrived on the Pan American clipper.

Canadian Frigate Battles And Destroys Sub In North Atlantic

H.M.C.S. "Wakabushu," above, first frigate ever to be built in a Canadian shipyard, recently attacked and destroyed a U-boat during an action in the north Atlantic which lasted for about two hours.

BIG EGG CONTRACT

Calls For Shipment Of 7,500 Long Tons Of Dried Egg Powder

OTTAWA.—A contract calling for shipment of a minimum of 7,500 long tons of dried egg powder annually during 1944 and 1945 has been entered into between the Special Products Board and the British ministry of food, the board announced. The contract also provided that at the option of the ministry up to 18,000,000 dozen eggs of the 1945 shipments may be taken as shell eggs.

The minimum contract quantity of dried egg powder is equivalent to 48,000,000 dozen shell eggs. Pre-war egg exports to Britain were about 1,000,000 dozen annually. Shipments of dried eggs in 1945 were the equivalent of 34,000,000 dozen shell eggs.

PROBLEM DISCUSSED

Ways Studied For Expanding Markets For Prairie Fish

OTTAWA.—Problems of marketing prairie province fish were discussed at a meeting of representatives from the provinces with federal fisheries officials.

Ways of expanding home markets and developing foreign markets for the post-war were studied. Among those at the meeting were Hon. W. F. Kerr, minister of natural resources for Saskatchewan; A. J. Whitbure, federal director of western fisheries, and provincial fisheries advisers from Alberta, Manitoba and Saskatchewan.

FOR FARM WORK

Ask Release Of Men From Canadian Defence Army In Pacific Area

CALGARY.—Release of men from the Canadian defence army in the Pacific area for farm work was advocated by the board of directors, Alberta federation of agriculture, in a resolution passed at a meeting here. The federation executive will make representations to the minister of national defence. The directors also requested the wartime prices and trade board to make an increased quota of ammunition available for civilian use in 1944 for the protection of farm animals and poultry.

NO CHANGE SEEN

Daylight Saving Likely To Stay Until War Is Over

OTTAWA.—Munitions department officials said there was little likelihood of any change, for the duration of the war at least, in the present Dominion-wide policy of daylight saving time throughout the year.

They were commenting on a resolution adopted by the Ontario Educational Association at Toronto, asking the federal government to return to standard time.

A department spokesman said the government considers the saving of hydro power and fuel and the fact the urban population favors daylight saving, outweighs the disadvantages claimed for the rural population.

Canadians Need Not Worry Over Debt Increase

TORONTO.—Canadians should not be frightened by increases which have taken place in the country's debt so far or which are likely to take place before the end of the war, Graham Towers, governor of the Bank of Canada, said in an address at a Canadian Club luncheon.

"I do not wish to suggest that public debt could be increased at the present rate for an indefinite period of time without placing an intolerable strain on the economy, even though the additional interest payments are made to our own people," said Mr. Towers, also general chairman of the national war finance committee.

But I do say that the increases which have taken place so far, or are likely to take place before the end of the war, should not frighten us.

"The real burden of public debt depends on the taxable capacity of the country, and that, in turn, depends on our production and earnings. National income has approximately doubled since before the war. At the present moment, the real burden of debt charges is less than it was 20 years ago."

The amount owed by the Dominion government and the Canadian National Railways had increased \$6,498,000,000 between Aug. 31, 1939, and Dec. 31, 1943. The domestic debt had increased somewhat more than this, but had been offset by a considerable reduction in foreign debt.

"The average cost of war financing has been a little less than 2½ per cent. Moreover, average interest costs of pre-war debt have been reduced during the last four years as it has fallen due and been refunded. Finally, the cash receipts of the government from its investments in or advances to other organizations, such as Bank of Canada or foreign exchange control board, have to be taken into account in determining the net interest burden, and receipts of this character have increased substantially since the war," said Mr. Towers.

The key to the debt problem as to many others rested chiefly in the maintenance of a high level of employment and income in the post-war years, said Mr. Towers. But a country to be successful in the economic field had to gain the understanding and support of its people.

Would Choke Off Neutral Trade With Germany

LONDON.—Britain and the United States—acting in concert before the opening of the western front to choke off neutral trade with Germany—called for a showdown with Sweden on that country's export of war materials to the Reich.

This further demonstration of a new "get tough" policy swiftly followed protests against increased chrome shipments from Turkey to Germany and the seizure by Spain of Allied oil stocks at Tetuan, Spanish Morocco.

The economic isolation of Elre was tightened.

Delivery of the Anglo-American note concerning Swedish trade with Germany by the United States minister, Herschel V. Johnson, at Stockholm thus put the fourth bludge in United States Secretary of State Cordell Hull's new program. It was widely expected to be followed by a similar representation to Lisbon on Portuguese wolfram exports to Germany.

The Sweden recently renewed trade pact with the German provided a reduction in iron, steel and ball-bearing deliveries. The Allies now are exerting pressure for a maximum shutdown of supplies to Germany to cripple Hitler's war machine as the climax of the war approaches.

Stockholm reports said the note demanded Sweden halt export to the Axis of ball bearings and the raw materials and machines used in making the bearings.

Neutral reports to London indicated the Germans were not taking the Allied moves lying down and were sending delegations to Turkey and Portugal to preserve or boost purchases.

A report from Lisbon said Portuguese trade papers contained advertisements of German offers to barter steel and modern machine tools, indicating the Nazis still felt they could spare these items in their strained economy in exchange for vital raw materials such as wolfram and currency for foreign trade.

The Berlin radio broadcast a despatch by Georg Schneider which was an implied threat to neutral nations against giving aid to the Anglo-American demands.

Declaring that "one-sided economic support of a belligerent party means automatic enmeshment in the war," the broadcast said that "England and America with their present pressure, for which Hull fired the starting shot, are pursuing their old policy with old arguments."

Further the broadcast asserted that Britain and the United States "do not respect the rights of neutrals and thus ignore international agreements."

MAIL FOR TROOPS

Time For Delivery In Mediterranean Area Has Been Cut

OTTAWA.—The post office department disclosed three days have been lopped off the transit time for delivery of surface mail from Canada to Canadian troops in the Mediterranean area.

When Postmaster General Mulock outlined the delivery times for troops in the House of Commons Feb. 28, he set 59 days as the time required for receipt of letters by Canadians on the Italian front. Since then the average time has been cut to 56 days, with prospects that the time will be further improved.

MAKES DECISION

Italy's King To Withdraw From Public Affairs When Rome Falls

NAPLES.—King Victor Emmanuel, after a reign of 43 years as king of Italy, announced in a broadcast that he will withdraw from public affairs the day Rome falls in favor of his son, Crown Prince Humbert.

"This decision, which I and my family believe to carry national unity, is final and irrevocable," the king said.

The 73-year-old monarch explained that upon his retirement he will set up a lieutenant-generalcy under the crown prince to carry on the duties of the Royal House of Savoy.

NO SUNDAY BALL

URMSTON, Lancashire, Eng.—On the ground that "it would spoil the English Sunday football game," town council has refused American soldiers permission to use the public park for Sunday football games.

SEEMS THERE'S NO ESCAPE

This one actually happened. A young captain from a Picot County mining town came out of the lines in Italy and at a rest camp promptly asked for his mail. It was brought to him, and on top was an important official looking envelope bearing an Ottawa postmark. He opened it and it read something like this: "This is to notify you that your 1942 income taxes have not been paid in full, and if the balance is not paid up within twelve days of the above-mentioned date (which has long since passed) prosecution will follow."
 —New Glasgow Free Lance.

IT IZ VERI IZI TU RIID

The basis of the new alphabet which Mr. Shaw, of London, seeks is phonetic shorthand.

Many systems of notation, including various kinds of shorthand, employ 42 symbols, one for each sound in the English language. Mr. Shaw says most of these are good. One wherein he takes great interest is broad ionic invented by Henry Sweet, celebrated Oxford linguistic professor, who suggested the character of Professor Higgins in Pygmalion. Broad ionic, however, uses many ordinary familiar letters, while Mr. Shaw favors invention of an entirely new alphabet. Professor Sweet's system, for instance, represents the sound "ch" as in child, by a letter that resembles the old English "ch" and the "ng" sound by the letter "a" with the tail lengthened. The "A" sound in the phrase "I read a book" is the letter "e" upside down and so on. Here is a sentence in broad ionic: "It iz veri izi tu riid."

TWIN'S IN THE RCAF

You were a happy pair of kids,
 So gay and full of fun;
 And now you have to go and help
 To fight the awful Hun.
 It saddens us to see you go,
 But still not bid you stay,
 For if you did you would not be
 The men you are today.
 Departing lads was brief and sad,
 But still we shed no tears,
 For we knew you'll do the right thing
 Where'er you are, my dears.
 We're proud of you dear young lads,
 Tho' often sad to think of joys we
 Had,
 And sometimes wonder if you too
 Shed a tear
 For those happy days of yesteryear.
 And so we look into the sky
 To watch the planes like birds
 Go by,
 We offer up for each a prayer
 That God will keep you safe up
 There.
 —Violet I. Scott, Blairmore.

The USA estimates the use of wheat for feed this season at 470 million bushels. Production of bread grains in Sweden in 1943 was at about the same level as in 1942, but considerable below average. Switzerland has begun rationing of bread and some dairy products.

NATIONAL SELECTIVE SERVICE

If You Employ Male Persons

Have they all complied with the Military Call-Up?

By an Order signed under authority of the National Selective Service Mobilization Regulations:

1. Every employer of male employees must make an examination of the documents of these employees, and forward advice on those who fail to produce documents showing good standing under Mobilization Regulations.
2. This examination must be completed by May 1st, 1944.
3. "EMPLOYER" includes industrial and commercial employers, and also farm operators.
4. "MALE EMPLOYEE" includes all male persons working for you.
5. A booklet "EMPLOYER'S GUIDE," has been sent to industrial and commercial employers. A return post card has gone to farm operators.
6. If you employ any male person, and have not been notified of the survey by booklet or post card, contact the nearest Employment and Selective Service Office and ask for the booklet.
7. Workers in agriculture, of military age, who have not been notified by the Army and who have not a Postponement Order should apply for such order to the nearest Registrar immediately.
8. Obligation to make the examination rests on each and every employer of male persons, and employers must act.
9. Penalties are provided for failure to carry out this examination, and for male employees failing to assist by refusal to produce documents.

THE NATIONAL SELECTIVE SERVICE MOBILIZATION REGULATIONS

HUMPHREY MITCHELL,

Minister of Labour.

A. MacNAMARA,
Director, National Selective Service.
S-12-2-W

From time to time applications are made to the courts for declarations presuming death, so as to permit marriage or for other purposes. In some cases the courts have been assuming this power and the applications have been granted, and in other cases the applications have been refused on the ground of lack of jurisdiction. It is in the public interest that this situation be clarified. The proposed amendment would give statutory authority for the exercise of this jurisdiction. It is in the same terms as an amendment recently made in England, except that it does not purport to authorize the dissolution

of the marriage.

COMMUTING BY AIR is being planned
for you by men who think of tomorrow

TOMORROW'S HELICOPTER COMMUTER! ... Step from your office building terrace into your Helicopter and commute to your hunting lodge on a mountain lake 200 miles away! That's more than a commuter's dream, for the Helicopters already designed will make it possible for you Tomorrow! You can take off and land vertically ... and fly so fast that your own hide-out in the woods will be only minutes away!

Yes—the Helicopter Commuter, promising a broader and more enjoyable way of life, is only one of the many wonders being planned today by MEN WHO THINK OF TOMORROW.

All these things will be ours some day. But there's one all important job that comes first—winning the war.

Only when the war is won can we expect our gallant sons and daughters home and enjoy with

them the great things envisioned for our future by MEN WHO THINK OF TOMORROW. So, let's intensify our war effort ... keep up production rates ... buy more and more Victory Bonds and War Savings Certificates ... do everything we can to help speed this war to a quick, victorious end. Let's all be MEN WHO THINK OF TOMORROW.

THE HOUSE OF SEAGRAM

All Seagram plants in Canada and the United States are engaged in the production of high-proof alcohol to help speed the war to a victorious end. High-proof Alcohol for War is used in the manufacture of Smokeless Powder, Composites, Navigation Instruments and many other wartime products.

Your Victory Bond

- Is a RECEIPT for a LOAN you have made to your Country to help it fight YOUR battle for Democracy.
- Is immediately convertible to cash at any time you so desire.
- Pays you better interest than you will receive at any bank.
- Provides a comfortable nest-egg for after-the-war buying.

Space Donated By
THE BREWING INDUSTRY OF ALBERTA

The United States has only six per cent of the world's population.

At recent meetings of Coleman bridge clubs a suitably engraved signet ring was presented by the men to Mr. H. C. McBurney, resigned druggist, and bedroom lamps and a pendant by the ladies to Mrs. McBurney, bidding them good luck in their new home.

The Fernie hospital, by order-in-council, has been given \$3,500 by the BC government for 1944 under terms of the municipal act; and on recommendation of the commissioner, the Holy Family school at Fernie has been given \$504 to take care of a number of pupils who, if they went to the public school, would necessitate extra teachers.

The chairman of the district ration board has issued the following figures relating to ration books issued by the local committees at the end of last month: Coleman 3,169, Blaimore 2,019, Frank 215, Bellevue 1,716, Hillcrest 853. Total 7,953 books. These figures are interesting and show the population of the towns in the Crows' Nest Pass.

At a meeting held recently in Pincher Creek the matter of forming a civic centre was considered. The goal suggested and agreed upon as cost was \$100,000. The project planned is for a centre in which all recreational activities of the town may be held. The plan calls for a community hall, skating rink, curling rink and sports ground.

Give This Man a Warm Welcome

You may not regard the Victory Loan salesman as a salesman when he calls on you. He is a man from your community whom you likely know well... perhaps a neighbor. He may never have done any selling before.

He has taken on this work because he feels that it is an important war job that must be done.

As a matter of fact he is not trying to sell you anything. He will ask you to save money.

Farmers are doing an important war job, too... producing food. Most farmers have increased their incomes. They have money to save.

You plan to use this money, and the things you plan to use it for are necessary things.

The Victory Loan salesman will ask you to let your country have the use of your savings now by putting your money into Victory Bonds.

Our big job now is to win the war, and to win it as soon as we can. That's why every Canadian is asked to buy Victory Bonds. It's why each of us is asked to buy all we can. You can buy them with cash, which you have saved, and you can buy more bonds and pay for them as you earn money, over a period of six months.

Put Victory First
